

We are a growth-oriented Swiss company, active in the asset management and family office fields, with an international clientele and bureaus in Zurich, Berne and Lausanne as well as a representative office in London.

We are

building up our new company in Hong Kong/Singapore

and are looking for an

Private Banker/Asset Manager as Partner

We wish to entrust this interesting position to a financial professional (male or female) who demonstrates initiative, has long-standing local experience and entrepreneurial qualities.

You are familiar with the diversity of the Asia region; the people and their culturally-determined requirements are important to you, and you have excellent contacts extending beyond the greater Hong Kong/Singapore region.

You specialise in asset consultancy, already manage a corresponding portfolio and actively support an established client base? Then we are offering you the opportunity to build up a new business together with us, while working independently and attending to the needs of your own clients.

If you are interested in a cooperation based upon partnership within a friendly working environment, wish to preserve your independence and are keen to determine your quality of life and your earnings potential largely autonomously, then we are just what you are looking for.

We are looking forward to meeting you in person. Simply phone or write to Mr Kaspar Grob, grob@h-t-p.ch, Managing Senior Partner, Headquarter Zurich Switzerland, Tel. +41 44 215 17 17. Absolute discretion is guaranteed.
